

1. Which field of the Customers table is the primary key?

Ans: The primary key of the Customers table is C_num.

2. What is the 4th column of the Customers table?

Ans: The 4th column of the Customers table is Rating.

3. What is another word for row? For column?

Ans: Another word for row is record or tuple.

Another word for column is field or attribute.

4. Why isn't it possible to see the first five rows of a table?

Ans: It is not possible to see the first five rows of a table by default because SQL tables do not have an inherent order. Rows are stored unordered unless you explicitly retrieve them in a specific order using the ORDER BY clause.
